

Biology

Course Content

YEAR 12

Unit I

Biochemistry

Water, carbohydrates, lipids, proteins, enzymes, DNA, genes, mutations, viruses.

Unit 2 Cells

Eukaryotes, prokaryotes, microscopes, membranes and transport.

Unit 3 Reproduction

Cell cycle, mitosis, meiosis, chromosome mutations, sexual reproduction in mammals, sexual reproduction in plants.

Unit 4 **Transport**

Gas exchange, circulatory system, heart, blood vessels, haemoglobin, blood clotting, cardiovascular disease, water transport in plants, sugar transport in plants.

Unit 5 **Biodiversity**

Classification, natural selection, speciation, biodiversity, conservation.

Course Content

YEAR 13

Unit 6 **Ecology**

Fieldwork, statistics, food chains,

populations, matter cycles, energy transfer, succession, human effects.

Unit 7 Metabolism

Aerobic and anaerobic respiration, photosynthesis

Unit 8 Microbes and Disease

Microbiological techniques, growth curves, pathogens, antibiotics, malaria, immune system, vaccination.

Unit 9 **Control Systems**

The nervous system, synapses, drugs, eye, brain, the endocrine system, homeostasis, the kidney, plant responses.

Unit 10 Genetics and Biotechnology

Variation, genetic crosses, genetic drift, Hardy-Weinberg, control of gene expression, stem cells, biotechnology, gene sequencing, GM crops.

Assessment

Paper I

Ihr 45min written exam on units: 1, 2, 3, 4, 5, 7, 9, 10

90 marks (30% of total A level)

Paper 2

Ihr 45min written exam on units: 1, 2, 3, 4, 5, 6, 8, 10

90 marks (30% of total A level)

Paper 3

2hr 30min written exam on all 10 units.

120 marks (40% of total A level)
